9. **Discussion / Q&A**

- a) *Michaela*: Universities tend to do construction during the summer, when it's less congested.

- b) *Jon*: It's not UNLV doing the constructions, it's the county. That's why we're positive when it's going to happen.
- c) *Natasha*: When you mentioned the Brussels parking, did you mean Lot A or Lot B?
- d) *Jon*: I mean if you are Brussels and you want to take a left on Tropicana, that will no longer be an option.
- e) *Natasha*: What's a fly over?
- f) *Jon*: It's like an overpass.
- g) *Athena*: I noticed that parking was out on a Sunday. They usually are not. Is that a thing now?
- h) *Jon*: I can find out.
- i) *Natasha*: This was it update you gave last semester, but you gave no updates on it after. You mentioned getting ticketed for backing backwards. Is that still a thing?
- j) *Jon*: We had to vote whether there was going to be a fine for backing into your parking space. Due to accessibility issues and a variety of different problems that presented, that did not go through.
- k) *Michaela*: I know you brought up security. Did they bring up the muggings that happened within parking lots?
- l) *Jon*: They did not. I don't think this was a response to the most recent mugging, but I do know we have had a lot of different issues with parking lots. So, they've been given money to help fix it. I believe the camera are being upgraded to identify people. This will not solve the problems of the crimes, but it will help deter people.
- m) I don't think this was a response to the most recent mugging. I believe the cameras are being upgraded to identify people. Will not solve the problem of crimes, but deter people

## B. Student Technology Advisory Board

1. **Meeting tomorrow**
2. **Will be voting on providing CSUN Senators access to student email lists**
  - a) There have been a lot of comments about how CSUN is awful with communication. CSUN can't email their constituents. The process currently is that the senators are supposed to go through the Deans, but the deans do not feel comfortable having the senators sending out emails. There will be 1 or 2 levels of verification before sending the emails out to students. Do you think this something the senators should have. They will not be able to email all students, just students within their college.
3. **Mobile App Environment for UNLV**

- c) *Emily*: The Rebel Safe app has that option. So, can we just move it over to the UNLV app.
- d) *Michaela*: Have an option to stay logged into MyUNLV because you have to relog into it everytime. Also, consolidate everything (e.i. Canvas, RebelSafe, UNLV app) into one.
- e) *Valerie*: Regarding emails, would students have the option to opt out?
- f) *Jon*: Yes.
- g) *Natasha*: As the Senator of Fine Arts, I would like to reach out to my students because I want know the issues first hand. I can't physically talk to every single one of them.
- h) *Michaela*: Is it possible to have an email that students can send their issues to for each college.
- i) *Jon*: The problem is having to keep track of the password and who has access to the account.
- j) *Lauren*: Is there going to be a MyUNLV app?
- k) *Jon*: I believe it's undergoing an entire renovation.
- l) *Charlie*: Have the app friendly for people who are blind. On one of the apps the text is small and I can't read it at all.
